¹ It is not necessary to apply for an ISBN allocation for specialized reviewed publications and lecturer's textbooks. ISBN numbers are allocated to specialized reviewed publications automatically after their publication is approved by the UWB Scientific Editorial Board. ISBN numbers are allocated to lecturer's textbooks automatically after their publication is approved by the dean of the relevant faculty.

² According to valid rules, a separate ISBN must be assigned to each different form in which a given title is published. More information about the rules for ISBN allocation is available on the website of the publishing house: <http://www.zcu.cz/pracoviste/vyd/>
